

YES MASKS

PROTECTING YOUR COMPANY, CUSTOMERS & COMMUNITIES

YES 4YOUTH .CO.ZA

The YES #MaskUp Model

The YES #MaskUp model offers local economies some relief through quality mask production and distribution, that also helps flatten the COVID-19 curve. Each mask sold drives money back into the hands of young craftspeople, entrepreneurs and into township economies. Your business can get involved in two ways:

#FundAMask

- #FundAMask for vulnerable communities, schools or through a charity of your choice
- R22 per mask as per Workwear Basic specifications
- YES will profile your funding story on all our platforms

#BuyAMask

- Comfortable, durable and well-made PPE
- Safe and compliant with government regulations
- Fully customisable for brands*
- YES will take away your mask management pain and proactively manage your organisation's mask needs

*Additional cost involved for logo inclusion
